

-  Peel paper
-  Peel paper + foam
-  Remove completely
-  Angled cut

1. Measure and draw the dimensions you see above on your foam board
2. Follow legend (see left) to peel paper, foam, or remove an entire section.
3. Fold the four faces like the figure on the left; sides should 'rest' on the bottom, and the 'top' should rest on the sides. This is the 'vertical loading' configuration, aka 'A fold'
